

Soft Lift®

Introducing the New Soft Lift® Child Safe Cordless Operating System

**Their Safety is Important to You.
Your Peace of Mind is Important to us.**

New for 2020 we are pleased to introduce Soft Lift®; our newest patented, certified child safe, cord free solution. Not only is Soft Lift® the only cordless system compatible with, and designed specifically for, our Zebra Shades, but it is also compatible with all of our Roller Shade Systems* too!

Now you don't have to sacrifice design for safety!

One-Handed Push-Pull Operation

The Soft Lift® cordless system allows you to effortlessly raise or lower your Zebra and Standard Roller Shades without any cords. Simply push-up or pull-down on the bottom rail and release.

Unrivalled System Compatibility

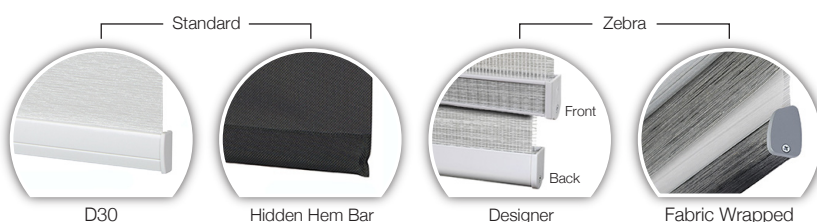

Top Treatments & Head Rails

Soft Lift® is the only cordless operating system fully compatible and specifically designed to work with our full line of Zebra Shades. The Soft Lift® system can also be used with a wide range of Top Treatments* and Headrail Systems* offered by Tiger Window Fashions (see back for more details).

Bottom Rails

Complete your Soft Lift® cordless roller shade by choosing between the standard D30 Aluminum bottom rail with color coordinated end caps or the Hidden Hem Bar where an aluminum bar is seamed into the fabric, creating a uniform look. For Soft Lift® Zebra shades, you can choose between the Designer Fabric Insert bottom rail with matching fabric inserted (*visible only from the front*) or the custom Tiger Window Fashions Fabric Wrapped bottom rail where matching fabric completely wraps around the entire unit.

Bottom Rail Styles

* Not compatible with 4 in. Sq. Fascia
